

Welcome to KD-Putz

Dear Customer,

as an enterprise we stand at your side living up to our tradition as a quality-minded merchant and a competent and solution-minded troubleshooter for more than 65 years. Now we take the next step by "individualizing" KD-traycleaning-machines exactly to your needs as a baker. For this we cut our product-variety into two groups, which are tailored to your advantage.

With our BASIC-line we offer you our low-cost starter-model, without you having to renounce for the quality you are accustomed to.

With the COMFORT-line we offer machines with a variety of sense-making extras, which mean an enormous measure to make your work easier.

Please take the chance and let us convince you:

...a KD it must be NOW!

Your's sincerely

Birgit Putz
Master of Business and Engineering
